MeacoCLEAN AIR PURIFIER – CA-HEPA 76x5 WiFi

The new MeacoCLEAN CA-HEPA 76x5 is a stylish air purifier that comes with WI-FI to make combating allergens and airborne pollutants an easier and more pleasant experience.

The PM2.5 precision laser sensor measures the number of particles in the air providing you with accurate reading via the large display and the colour changing collar. The fan draws the dirty air in from all sides of the air purifier giving you near 360° air cleaning. The H11 HEPA filter then removes 99.95% of the particles from the air with a pre-filter and charcoal filter for extra cleaning.

As your room becomes healthier and cleaner the air quality light will change colour to reassure you that you are breathing in cleaner air.

The 76x5 is perfect for use in the bedroom as the night mode turns the lights off and reduces the noise level down to that of a whisper.

All of this is powered by a low energy DC brushless fan motor and can be controlled by the free app that allows you to control the MeacoCLEAN remotely and will compare your indoor pollution levels with local readings outside so you know when pollen is high for example and you might want to run the machine for longer and harder.

The MeacoCLEAN CA-HEPA 76x5 can clean the air in rooms of 75m³ five times every hour so it is suitable for use throughout the home and office to give you cleaner and healthier air to breathe.

SPECIFICATIONS

Product Name		MeacoCLEAN AIR PURIFIER – CA-HEPA 76x5 WiFi
Rated Voltage		AC100-240V 50 / 60Hz
Rated Power		50W
Sleep Mode		Yes
Wi-Fi		Yes
Air Flow		150 / 250 / 450m ³ /h
Timer		2h / 4h / 8h
Nightlight		Yes
Child Lock		Yes
Noise Level		25 / 39 / 56dB
Area Coverage		76m ³ Cleaned 5 times / hour
Dimensions HDW		497 x 270 x 303mm
Gross Weight		5.7kg
Nett Weight		4.6kg
