Technical data

Wattage consumption

Speed	Wattage in W
1	1.6
2	2.1
3	2.9

Sound/ dBA level

Environmental noise is 27.9 dBA – measurement was done in 1m distance in the middle of the height from the unit

Speed	dBA
1	---
2	32.3
3	35.2

Output test

Environmental condition of the test chamber was 30% humidity level and 25°C room temperature. Start temperature of the water was 25°C

Speed	g/h
3	213

Outstanding 73 g/h humidifying performance per Watt. Best evaporator humidifier output related to energy consumption. So it's award winning and Best in his category!
