

Luna

The fifth largest moon in the solar system

A shining moon in the night sky – this is Luna! The colour-changing ambiente light and the fragrance of your preferred aroma oil will lift your mood and easily enhance your well-being. Thanks to the ultrasound technology it works silently and energy-efficient. The scents are optimally diffused into the selected rooms. Luna has a run time of up to four hours before water and/or aromatic oil need to be refilled. The diffuser is easy to use, has a night mode and an automatic shutdown.

Aroma Diffusor

Luna
